THE HENRY
FRANCIS DU PONT
WINTERTHUR
MUSEUM

Having received numerous requests for illustrations and prices of Rustic Summer Houses, Arbors, Druggies, Gateways, Chairs, Settees, Vases, etc., we wish to offer to our patrons this limited catalogue, trusting it may, to some extent, serve as a guide in making a selection.

When it is understood that we strive to be original in our designs and cater to the individual tastes of our customers in carrying out special designs adapted to special purposes, it will be realized how difficult it is to quote a list of set prices.

Where special work is required, such as the building of a Log Cabin, a unique Club House for a Golf Course, Bridges, Boat Houses, etc., we are always pleased to give estimate, furnish special design with plans and specifications.

Correspondence received by us will always receive prompt and careful attention.

In any case where it is important that a practical representative should call, make suggestions or give advice, we shall be pleased to send one.

We build anything that can be built from natural wood.

The work may be done at our own shops, or we will send men and material to any part of the United States.

TERMS. Net cash or satisfactory reference. Orders from unknown parties, whose financial rating is not recorded, must be accompanied by a Draft on New York, Registered Letter or Money Order.

ORDERS. Please write orders on separate sheet, apart from the body of the letter, and be very particular to give name and address distinctly, thus facilitating execution and preventing errors.

PACKING AND SHIPPING. No charge is made for packing or for delivery to freight depots or express offices in New York. Plain and explicit shipping directions should be given with every order, naming mode and route for forwarding, otherwise we will use our own judgment, but, upon delivery to railroad, steamboat or express companies, our responsibility ceases, and they alone must be held accountable for loss or delay.

ERRORS. In the press of business, errors sometimes may occur, of which we desire to be informed at once, that we may make proper amends, as we wish to render full satisfaction to all favoring us with their custom.

INTRODUCTION

The prices quoted in this catalogue are for solidly constructed houses, designed to last for a number of years. Where temporary structures of an indifferent nature will suffice, the prices, of course, are not the same. In such cases it will be necessary to say just what is required and receive estimate.

In cases where we ship far out of town houses or other structures in sections fitted and numbered ready for local carpenter to set up at prices quoted—and it is requested that we send a man to set it up—the additional cost will be in each case, railroad fare and \$3.00 per day for labor.

We advise our customers to allow us after erecting any valuable structure built of Red Cedar to treat it with a dressing of "Dunnite" No. 5. It is a preservative; also an insecticide. We make no charge for doing this except the cost of the material which is \$2.00 per gallon. You will find that this will pay for itself many times over in numerous ways. It protects the wood from the attacks of insects and gives a body to the bark that is long and lasting.

Copyright, 1902, by Dunne & Co.

PLATE I.

PLATE I.

Shows an Octagon Summer House of heavy Red Cedar, built from special design; diameter, 50 feet. Seats all way round, 20 inches deep by 18 inches high. A house like this should last 50 years or more, with ordinary roof repairing from time to time. Best adapted to parks or large estates.

Estimated cost, including wood flooring, \$1,000.00.

P. S.—In this case the floor and foundation is of brick and cement, which is not included in cost of the house. The making of this is optional; it may be done either by us or by consignee.

Copyright, 1902, by Dunne & Co.

PLATE II.

PLATE II.

Shows an Octagon Summer House of heavy Red Cedar, built from special design. Diameter, 25 feet. Seats on both sides, 20 inches deep by 18 inches high, with entrance from both sides. A house like this should last 50 years or more, with ordinary roof repairing from time to time.

Estimated cost, including floor, \$500.00.

P. S.—If wanted with brick and cement foundation, additional cost will have to be added.

Copyright, 1902, by Dunne & Co.

PLATE III.

PLATE III.

Shows an Oblong Rustic Summer Shade House of heavy Red Cedar, with Bay Alcoves on both sides, built from special design. Size, 50 feet long, 25 feet wide over all. Seats on both sides, 20 inches deep by 18 inches high, with entrance from both ends.

Estimated cost, including wood flooring, \$750.00.

If wanted with brick and cement foundation, additional cost will have to be added.

Copyright, 1902, by Dunne & Co.

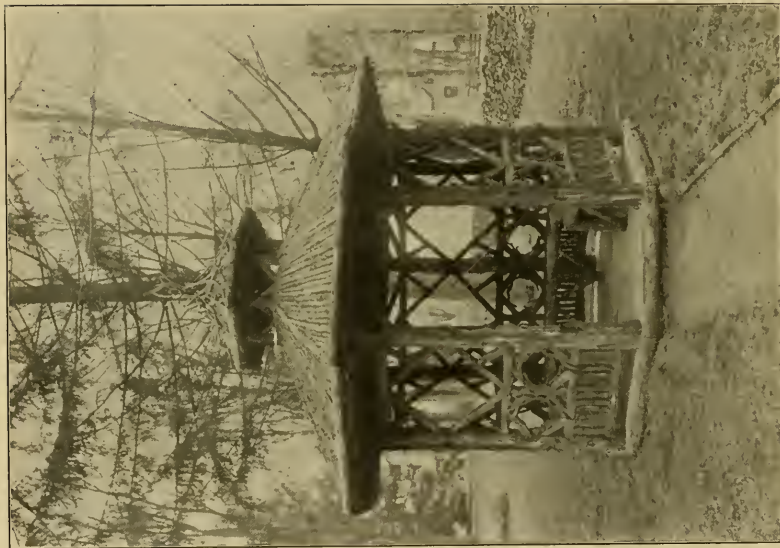

PLATE IV.

PLATE IV.

Shows a 12-foot diameter Octagon Summer House, built of Red Cedar, on high bluff overlooking lake. Such houses are very ornamental as well as useful.

PRICES COMPLETE.

8 feet diameter.....	\$100.00
10 feet diameter.....	150.00
12 feet diameter.....	200.00
14 feet diameter.....	250.00
15 feet diameter.....	300.00
16 feet diameter.....	350.00
20 feet diameter.....	450.00

Copyright, 1902, by Dunne & Co.

PLATE V.

PLATE V.

Shows a ten-foot Octagon Summer House, handsome and substantial, built of Red Cedar. May be shipped in sections to any part of the world. Sections are fitted and numbered, and can be set up by any handy man or local carpenter.

PRICES COMPLETE.

8 feet diameter.....	\$100.00
10 feet diameter.....	150.00
12 feet diameter.....	200.00
14 feet diameter.....	250.00
15 feet diameter.....	300.00
16 feet diameter.....	350.00
20 feet diameter.....	450.00

Copyright, 1902, by Dunne & Co.

PLATE VI.

PLATE VI.

Shows an eight-foot Shady Nook, placed in a quiet spot on private grounds. A desirable place to rest, read, study or write. Built of Red Cedar, with seats all around. When center table is requested, cost of same must be added. (See Plate No. 18.)

PRICES.

8 feet diameter.....	\$100.00
10 feet diameter.....	150.00
12 feet diameter.....	200.00
14 feet diameter.....	250.00
15 feet diameter.....	300.00
16 feet diameter.....	350.00
20 feet diameter.....	450.00

Copyright, 1902, by Dunne & Co.

PLATE VII.

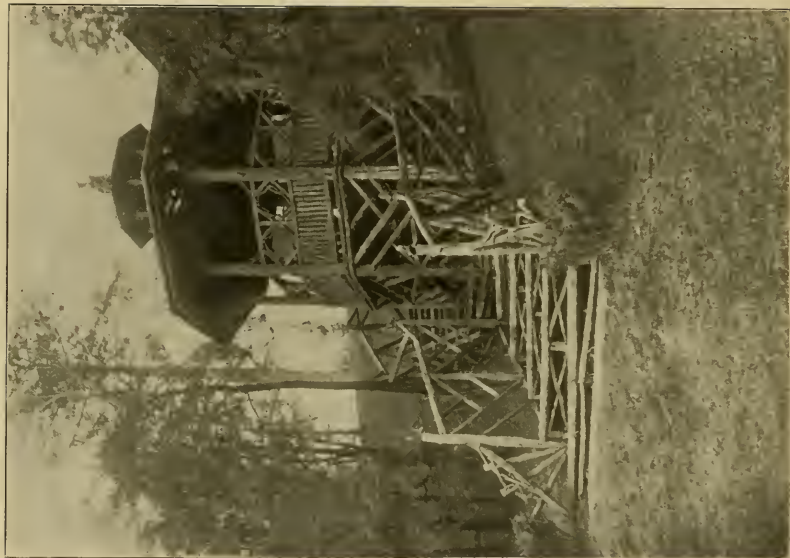

PLATE VII.

Shows a ten-foot Octagon Summer House, approached through grape or rose arbor; 25 feet long by 10 feet high.

For prices on Houses, see page 11.

For prices on Arbors, see page 37.

For prices on Furniture, see page 18.

Copyright, 1902, by Dunne & Co.

PLATE VIII.

PLATE VIII.

Shows a 14-foot Octagon Summer House, built of Red Cedar, and situated on the face of a terrace, with stairs leading down to it and stairs continuing down to lowest level.

Where such structure is desired, it will be necessary to ask for estimate, as special construction is necessary to insure safety and carry out proper effect.

Some idea of cost may be gained, however, by referring to pages 8 and 40.

Copyright, 1902, by Dunne & Co.

PLATE IX.

PLATE IX.

Shows a set of Summer House or Veranda Furniture, built of selected Laurel Root, with hardwood seats and table top. These are well varnished and highly finished. We also make them in rough Red Cedar, or from special designs. Tables may be ordered Round, Square, or Octagon.

TABLES (LAUREL) HARDWOOD TOP.

Round.	Square.	Octagon.
Diameter, 18 ins....\$3.00	Diameter, 18 ins....\$2.50	Diameter, 18 ins....\$3.00
Diameter, 20 ins.... 3.50	Diameter, 20 ins.... 3.00	Diameter, 20 ins.... 3.50
Diameter, 24 ins.... 4.00	Diameter, 24 ins.... 3.50	Diameter, 24 ins.... 4.00
Diameter, 26 ins.... 4.50	Diameter, 26 ins.... 4.00	Diameter, 26 ins.... 5.00
Diameter, 30 ins.... 5.00	Diameter, 30 ins.... 4.50	Diameter, 30 ins.... 6.00

Length of seat, 10 feet.....	50.00
Length of seat, 12 feet.....	60.00
Length of seat, 14 feet.....	75.00
Length of seat, 16 feet.....	85.00

Copyright, 1902, by Dunne & Co.

PLATE XII.

PLATE XII.

Shows the splendid use that may be made of the trunk of a fallen tree when in good position.

When such work is required it will be necessary to ask for estimate.

Copyright, 1902, by Dunne & Co.

PLATE XIII.

PLATE XIII.

Shows a rough camp in mountain woods, built of logs cut down on ground where camp stands. This structure is well built, and will stand for many years.

We are prepared to send skilled workmen to the Adirondacks or elsewhere, and erect any form of structure that may be desired.

Copyright, 1902, by Dunne & Co.

PLATE XIV.

PLATE XIV.

Shows Squirrel House built around butt of tree. These are of strong Red Cedar and very warm and comfortable. We also build Pigeon Houses, Bird Houses, Dog Houses, Etc., in many different designs.

In ordering, always mention diameter, and say round, square, oblong or octagon.

Estimates and designs furnished promptly on request.

Copyright, 1902, by Dunne & Co.

PLATE XV.

PLATE XV.

Shows seat around trunk of tree, built of strong Red Cedar. These are durable, and will not decay, although constantly exposed to the weather.

PRICES.

Seats with back..... \$1.25 per foot.

Seats without back..... 1.00 per foot.

We build these 18 inches high by 20 inches deep (or any depth required).

Copyright, 1902, by Dunne & Co.

PLATE XVI.

PLATE XVI.

Shows Seat around tree built of Peeled Red Cedar and varnished. These are sometimes asked for on account of their polished and cleanly appearance. They, however, do not look as natural as plate No. 15.

PRICES.

Seats with back.....	\$1.25 per foot.
Seats without back.....	1.00 per foot.

Copyright, 1902, by Dunne & Co.

PLATE XVII.

PLATE XVII.

Shows Shade Arbor with alcove seats built of strong Red Cedar, 100 feet in length, by 25 feet wide, by 15 feet high, covered in summer with Chinese Wisteria and Trumpet Creeper Vines. This is indeed a magnificent sight. These arbors we build in many different designs and sizes, to suit all purposes. The large sizes suitable for parks or very large estates; the smaller sizes for private grounds and country seats.

Cost of these arbors may be estimated at \$5.00 per foot. (That is to say, a 25-foot arbor complete would cost \$125.00.)

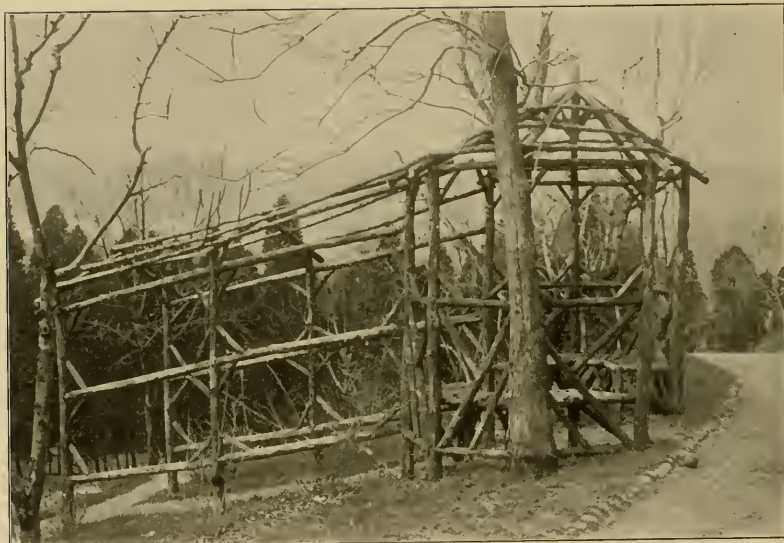

Copyright, 1902, by Dunne & Co.

PLATE XVIII.

PLATE XVIII.

Shows a handsome and substantial Grape Arbor built of Red Cedar, designed to last for many years, as Red Cedar is not subject to decay.

Cost of Grape Arbors (any height) may be estimated at \$2.50 per foot. (That is to say, a 25-foot arbor complete would cost \$62.50.)

Copyright, 1902, by Dunne & Co.

PLATE XIX.

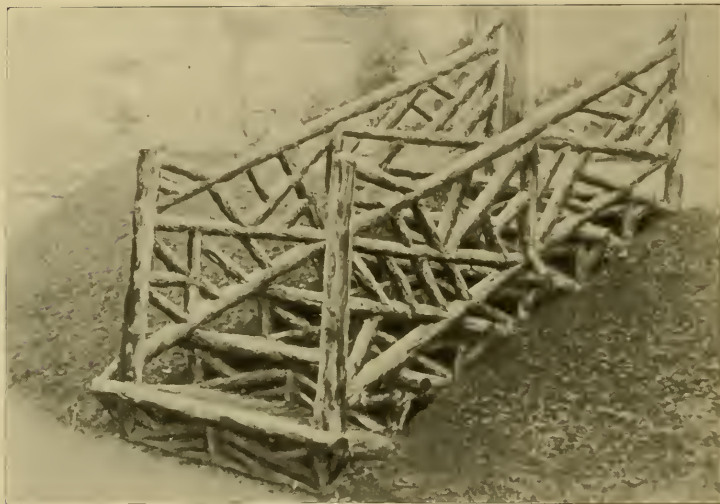

PLATE XIX.

Shows Vine Arbor Exit from carriage drive, built of Red Cedar. Strong and substantial.

Cost of these arbors may be estimated at \$3.00 per foot.

(That is to say, a 25-foot arbor complete, with seats, etc., would cost \$75.00.)

These arbors look very handsome when covered with vines. This photo is of one just completed.

Copyright, 1902, by Dunne & Co.

PLATE XX.

PLATE XXI.

Shows a sample of Red Cedar Rustic Fencing adapted to any purpose; is handsome and artistic, has a natural effect, and is even more durable than iron.

Cost of fencing, which is made in many different designs, may be estimated at \$1.00 per foot, any height up to 4 feet.

(That is to say, a 25-foot fence would cost \$25.00.)

Copyright, 1902, by Dunne & Co.

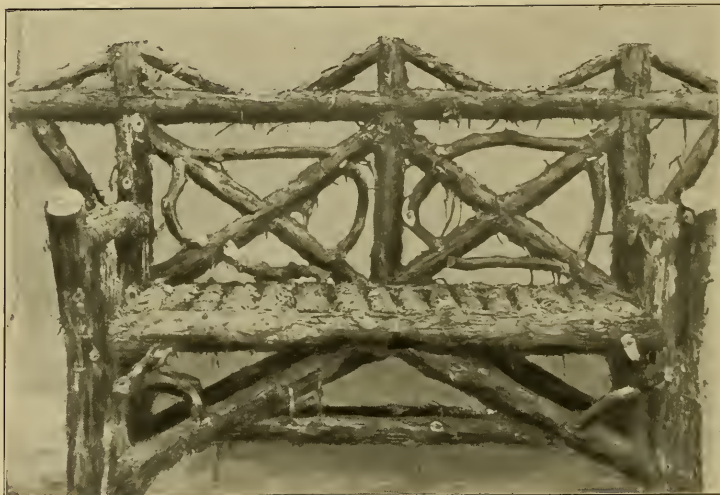

PLATE XXII.

PLATE XXIII.

Shows a Rustic Bridge for Foot Path, made of heavy Red Cedar.

Cost of same, including heavy log beam supports and flooring, any width desired, may be estimated at \$5.00 per foot.

(That is to say, a 15-foot bridge would cost \$75.00, complete.)

Copyright, 1902 by Dunne & Co.

Copyright, 1902, by Dunne & Co.

PLATE XXXVI.

PLATE XXXVI.

Shows Rustic Work as used in public parks for commercial purposes, but must look natural and be ornamental, so as not to detract from its surroundings.
(Send for designs and estimates.)

Copyright, 1902, by Dunne & Co.

PLATE XXXVII.

PLATE XXXVII.

Shows another style of Booth that is very welcome and useful, as well as ornamental.

(Send for designs and estimates.)

Copyright, 1902, by Dunne & Co.

PLATE XXXVIII.

Showing a Summer House set up at our shops and fitted together ready to be taken down again and shipped in sections to any part of the world.

Our shops at Kingston on the Hudson are now the most complete in the United States. We are in a position to carry out any work that may be entrusted to us. We have immediate connection with the West Shore R. R., New York Central and the Hudson River R. R., and all steamboats plying the Hudson River stop close beside our docks, which enables us to ship promptly and at lowest rates, direct from our plant. The plant is open at all times for the inspection of visitors.

Copyright, 1902, by Dunne & Co.

PLATE XL.

PLATE XL.

Shows a photograph of a Red Cedar Summer House built over fifty years ago. It is still sound and serviceable, and could be made as good as new by replacing the outside ornamentation and repairing the roof. Thus showing the durability of genuine *Red Cedar*.

LANDSCAPE GARDENING.

We are prepared to attend to all the details of the landscape art, including a topographical survey by an experienced engineer, grading, locating and making roads and drives, draining, arranging and planting trees, shrubs and vines for ornamentation on lawns or in parks and cemeteries; also the selection of desirable sorts for orchards or fruit gardens, and shall be pleased to correspond with any who are needing the services of a landscape architect.

Copyright, 1902, by Dunne & Co.
